

Life Care - a Local Missionary Outreach of OGC:

Update: 04-19-2006

God has really blessed lately, in that we have outgrown our room. Four years ago we started with maybe 5 or so regular participants, but now we are around 14 with seemingly new folks joining us quite often.

And what a joyful sight Monday April 10 when we helpers arrived to be greeted by the eager faces waiting for us to wheel them to the Bible Study. Sometimes these gals, Leslie, Francine and Renee are too ill and/or discouraged to get out of bed and join us. Their eyes lit up and they said, "'We're ready!" as our eyes met when we saw them there!

The group is praying for several non Christians living there to become Christians. Please join us in praying for their friends: W., P., D, D, S and S. B.

God has brought some strong Christians to recently become residents there. One, S., is relatively healthy physically so may be released and return home soon. It would be a loss to our ministry if she departs! But she lives close and says she'd continue to minister. (It is a Rehab Center as well as Nursing Home which is why some are temporary residents)

Please continue to pray God continues to fan the flames of their hearts to fulfill the Great Commission there among their fellow residents. Please pray for God to have mercy and extend supernatural physical healings for them as He ordains - it is heart breaking humanly speaking to watch such young folks have to live there with no human hope of anything else. Specifically, miracles of physical healings as He ordains for Francine, Bonnie, Lynn, Pamela, Renee, Nick, Veda, Pam - for starters!

Thanks! It is very obvious "Aslan is on the move" there which no doubt has to be in answer to your faithful prayers.
